Issued for Information of Producers
Who Are Not Members of Cooperative Associations

Vol. 3 No. 2

February 1959

JANUARY UNIFORM PRICE \$3.80

Dairy farmers who delivered Fort Wayne Grade "A" milk to pool plants subject to the Fort Wayne Milk Order during January 1959, will receive a minimum uniform price of \$3.80 per hundredweight for milk testing 3.5%. A butter-fat differential of 6.6¢ for each one-tenth of one percent that individual tests vary above or below the 3.5% standard will be used. This minimum price is subject to a 4¢ per hundredweight marketing service deduction and authorized hauling charges. The computation of the minimum blend price is shown on page 4 and the class prices on page 3.

The \$3.80 price for January 1959 is 24¢ below the January 1958 price. It is 32¢ under the December 1958 price.

PRODUCTION AND UTILIZATION

Approved producers shipped 7,986,215 pounds of milk to the Fort Wayne market during January 1959, of which 5,734,246 pounds or 71.8% was utilized in Class I. Production was up 3.8% from December 1958 and up 2.3% from a year ago in January. Class I utilization of producer milk was up 1.4% from December 1958 and up 1.0% from January 1958.

There were 816 producers on the market for January 1959 which is 11 less than December 1958, and 36 less than in January a year ago. Average production per farm per day was 316 pounds for January 1959. Daily farm production for December 1958 and January 1958 were 300 pounds and 296 pounds, respectively. Other comparable market statistics will be found on pages 2 and 3.

FEBRUARY 1959, SUPPLY DEMAND ADJUSTMENT +10¢

The supply demand adjustment for February 1959 will be +10¢, making a total difference between the February Class II and Class I prices of \$1.25.

Subscription price, Five Dollars Per Annum in Advance.
